

# Undergraduate Writing Across the Disciplines

(Faculty Survey)

## Informed Consent for Survey

Version 09.09.20

Dr. Cristyn Elder, from UNM's Center for Teaching and Learning and Associate Professor in the Department of English, is conducting a research project. The purpose of the research is to understand how faculty use writing (or not) in their undergraduate courses to support student learning. You are being asked to participate because you are an instructor who teaches undergraduate courses on UNM's main campus.

Your participation will involve answering an online survey. The survey should take about 20 minutes to complete. The survey includes questions such as *How often do you use lower stakes writing activities in your undergraduate classes? What challenges do students face when writing in this course?* Your involvement in the research is voluntary, and you may choose not to participate. You can refuse to answer any of the questions at any time. There are no names or identifying information associated with your responses unless you choose to provide contact information for an optional, voluntary interview. There are no known risks in this research, but some individuals may experience discomfort or loss of privacy when answering questions. Data will be collected using Opinio and stored there under a protected password, only accessible by the PI. Survey data will be stored within Opinio and will be password protected. All identifiable information (i.e., your name and contact information, if given) will be removed from the information collected in this project and replaced with a pseudonym. After Dr. Cristyn Elder removes all identifiers and replaces them with a pseudonym, the information may be used for future research or shared with other researchers without your additional informed consent.

There are no direct benefits to completing the survey, and there will not be payment for participation. However, a potential benefit to participants is that the results of this research will inform future faculty development workshops offered by UNM's Center for Teaching and Learning so as to support faculty in their use of writing assignments and assessments for promoting student success. Faculty participants may also choose to seek feedback and suggestions from the researcher on their writing assignment prompts and assessment tools to support their teaching. The findings from this project will provide information on how to support faculty in their assignment design and assessment of undergraduate student writing. If published, results will be presented in summary form only. Quoted material will be deidentified and use pseudonyms.

You may withdraw from this study at any time by closing the survey and opting not to answer additional questions. Your anonymous survey data will still be included in the results of this study up to the point of the last question you responded to. However, if you provided your name and contact information as part of your survey responses, your complete survey responses will be immediately deleted upon notification of your withdrawal from the study and not be included in the analysis or results of this study.

If you have any questions, concerns, or complaints about the research, please feel free to call Dr. Cristyn Elder at 765-586-6609. If you have questions regarding your rights as a research participant, or about what you should do in case of any harm to you, or if you want to obtain information or offer input, please contact the UNM Office of the IRB (OIRB) at (505) 277-2644 or [orirb.unm.edu](mailto:orirb.unm.edu).

By clicking "START", you will be agreeing to participate in the above described research.

### Q21: Purposes for Writing

Do you have students write for the following purposes in your selected course? I use writing activities and/or assignments...	Sometimes	Never
to help students identify what they already know about a topic.	<input type="radio"/>	<input type="radio"/>
to help students think through and learn a new concept.	<input type="radio"/>	<input type="radio"/>
to hold students accountable for the reading or homework.	<input type="radio"/>	<input type="radio"/>
as formative assessments so I can measure what students understand and what I need to review or still cover.	<input type="radio"/>	<input type="radio"/>
as summative assessments to test students' learning of course concepts.	<input type="radio"/>	<input type="radio"/>
to give students opportunities to practice writing in specific genres or ways of writing for a specific discipline.	<input type="radio"/>	<input type="radio"/>

For what additional purposes do you ask students to write in your course?
